

Registered Massage Therapist Vancouver

Registered Massage Therapist Vancouver - A person who works with energy fields surrounding the human body or animal is referred to as an energy healer. The fields of energy that surround living things have been called chi, qi, chakra body, aura body, or the energy body. To an energy healer, the name is not as essential as the effects of working with it.

Healing with energy fields is an important part to any holistic healing plan as the energy fields surrounding our human body and the other items surrounding us are intimately associated to our overall health. Energy work is related with the gateway of the Spirit. The Body Gateway is connected with physical healing, the Mind Gateway is related to mental and emotional healing and the Spirit Gateway is connected with energy healing.

Several energy healers believe that the majority of dis-ease starts from blockages of energy and could be healed by releasing blocked energy in the body. For instance, respiratory ailments may feature a blockage of energy around the lungs. When an energy healer unblocks that particular area, your respiratory issues must lessen or vanish.

Depending on the system they work with, energy healers operate in various ways. The basics are as follows: exorcising negative fields, unblocking, re-routing and charging with light. Your local spiritual bookstore or metaphysical store might be able to put you in touch with an energy healer if you feel this could be best for you.
