

Anxiety Treatment Vancouver

Anxiety Treatment Vancouver - BioGenesis is an ancient technology that is millions of years old. It has not been on Earth since the days of Pre-deluvian civilizations. BioGenesis was reintroduced during the year 1999 by an ascended master with the intention to make life a lot better. BioGenesis is a treatment that involves utilizing glass tools which have been instilled with spiritual energy. The glass tools work by radiating that energy into their environments. Though every tool uses the same energy, the design of the tools is what determines how the energy is to be utilized.

The BioGenesis Tools include the Biotranslator and the BioAmplifier, as well as the BioOscillator amongst others. These tools should restore harmony to the emotions, body and the mind as well as bring harmony to anyone's life, their house as well as their place of work. The glass tools have been instilled with the remembrance of the Process of Creation. That glass then re-educates or radiates its environment with the memory of the Process of Creation. When the memory of this process has been restored within a person or an item, a living system is created and it becomes living matter.

BioGenesis strives to help you attain balance and harmony within your house, manifest your life objectives and restore your vitality and your health. BioGenesis tools could restore harmony to all parts of your being by using the Light of Creation. These basic glass tools could have a positive effect and help to restore health and energy to someone undergoing a variety of physical situations, mental and spiritual clarity, as well as emotional harmony and happiness.

What Occurs during a BioGenesis Session?

Session that utilize specific BioGenesis energy tools above the body could help promote greater balance, health and harmony. Participants have reported that sessions are very relaxing and extremely restorative. The BioGenesis tools radiate the Genesis Energy to your mind, body and spirit. The session begins with stating an intention or a simple statement of desire. This particular goal is set with the massage therapist holding two of the BioGenesis tool a couple of inches on top of you. These tools are the Biotranslator and the BioAmplifier. Utilizing these tools, you and the massage therapist then focus on your desire and make your call for help to be able to accomplish the desire.
